10. Periodontics and Implantology.
11. Conservative Dentistry
12. Pedodontics and Preventive Dentistry
13. Oral Pathology and Microbiology
14. Orthodontics
15. Community Dentistry

GENERAL GUIDELINES

1. The compulsory rotating Dental Internship shall include training in Oral Medicine & Radiology; Oral & Maxillofacial Surgery; Prosthodontics; Periodontics; Conservative Dentistry; Pedodontics; Oral Pathology & Microbiology; Orthodontics and Community Dentistry.
2. It shall be task-oriented training. The interns should participate in various institutional and field programmes and be given due responsibility to perform the activities in all the departments of Dental Colleges and associated institutions.
3. To facilitate achievement of basic skills and attitudes the following facilities should be provided to all dental graduates:
 - i) History taking, Examination, Diagnosis, Charting and recording treatment plan of cases.
 - ii) Presentation of cases in a group or Seminar.
 - iii) Care and Sterilization of instruments used.
 - iv) Performance and interpretation of essential laboratory tests and other relevant investigations.
 - v) Data analysis and inference.
 - vi) Proper use of antibiotics, anti-inflammatory and other drugs, as well as other therapeutic modalities.
 - vii) Education of patients, their relatives and community on all aspects of dental health care while working in the institution as also in the field.
 - viii) Communication aimed at inspiring hope, confidence and optimism.
 - ix) Legal rights of patients and obligations of dental graduate under forensic jurisprudence.

DETERMINANTS OF CURRICULUM FOR INTERNSHIP FOR DENTAL GRADUATES

The curricular contents of internship training shall be based on:

- i) Dental health needs of the society.
- ii) Financial, Material and Manpower resources available for the purpose.
- iii) National Dental Health Policy.
- iv) Socio-economic conditions of the people in general.
- v) Existing general as also the primary health care concept, for the delivery of health services.
- vi) Task analysis of what Graduates in Dentistry in various practice settings, private and government service actually perform.
- vii) Epidemiological studies conducted to find out prevalence of different dental health problems, taking into consideration the magnitude of dental problems, severity of dental problems and social disruption problems, severity of dental problems and social disruption caused by these-problems.
- viii) Experimental judgement of experts in Dentistry in India.

HIPPOCRATES OATH

- I swear to fulfill, to the best of my ability and judgment, this covenant:
- I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.
- I will apply, for the benefit of the sick, all measures [that] are required, avoiding those twin traps of overtreatment and therapeutic nihilism.
- I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug.
- I will not be ashamed to say "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.
- I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.
- I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.
- I will prevent disease whenever I can, for prevention is preferable to cure.
- I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.
- If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.

CODE OF ETHICS

It is the duty of every Dental Surgeon to govern himself in accordance with the underlying principles which have motivated the Formulation of Code.

In order the Dignity and Honour of the Dental profession may be upheld and its sphere of usefulness extended and understand more clearly their patients and community at large.

1. Advertisement through Hand Bills, Posters, Circulars, Cards and Signs or in News Paper in un professional.
2. Should not use display advertisements of any kind other than the place of practice.

One of the essential qualities of the clinician is interest in humanity for the secret of the care of the patient is in caring for the patient.

OBJECTIVES:

A. To facilitate reinforcement of learning and acquisition of additional knowledge;

- a) Reinforcement of knowledge.
- b) Techniques & resources available to the individual and the community; Social and cultural setting.
- c) Training in a phased manner, from a shared to a full responsibility.

8. To facilitate the achievement of basic skills; attaining competence Vs. maintaining competence in:

- i) History taking.
- ii) Clinical Examination.
- iii) Performance and interpretation of essential laboratory data.
- iv) Data analysis and inference.
- v) Communication skills aimed at imparting hope and optimism in the patient.
- vi) Attributes for developing working relationship in the Clinical setting and Community team work.

C. To facilitate development of sound attitudes and habits:

- (i) Emphasis on individual and human beings and not on diseases / syndromes.
- (ii) Provision of comprehensive care, rather than fragmentary treatment.
- (iii) Continuing Dental Learning and Education and accepting the responsibility.

- D. To facilitate understanding of professional and ethical principles:
- Rights and dignity of patients.
 - Consultation with other professionals and referral to seniors institutions.
 - Obligations to peers, colleagues, patients, families and community.
 - Provision of free professional services in an emergent situation.

E. To initiate individual and group action, leading to disease prevention and dental health promotion, at the level of individuals, families and the Community.

EVALUATION

1. FORMATIVE EVALUATION

Day-to-Day assessment of the dental graduates during their internship posing should be done. The objective is that all the interns must acquire necessary minimum skills required for carrying out day-to-day professional work competently. This can be achieved by maintaining records and performance data book by all interns. This will not only provide a demonstrable evidence of the processes of training but more importantly, of the intern's own acquisition of competencies as related to performance. It shall form a part of formative evaluation and shall also constitute a component of final grading of interns.

2: SUMMATIVE EVALUATION

It shall be based on the observation of the observers of different departments and the records and performance data book maintained by the interns. Grading shall be done accordingly.

1. Oral Medicine & Radiology . - 1 month
2. Oral & Maxillofacial Surgery - 1 1/2 months
3. Prosthodontics - 1 1/2 months
4. Periodontics - 1 month
5. Conservative Dentistry and Endodontics- 1 months
6. Pedodontics - 1 month
7. Oral Pathology & Microbiology - 15 days
8. Orthodontics and Dento Facial
Orthopaedics - 1 month
9. Public Health Dentistry - 3 months
10. Elective Posting - 15 days

ORAL MEDICINE & RADIOLOGY

1. **Standard examination of patients**
2. **Exposure to clinical, pathological laboratory procedures and biopsies** **5 cases**
3. **Effective training in taking of Radiographs :**
 - (Intra - Oral) 1.O. 50**
 - (Extra - Oral E.O. OPG)10** **1**
 - Cephalogram** **1**
4. **Effective mangement of cases in wards** **2 cases**
5. **Seminars / Project Work** **one**
6. **Interesting Case Record (With Photos)** **5 cases**
7. **Extra Oral Radiograph with Inter Pretation** **one**
