KARPAGA VINAYAGA INSTITUTE OF DENTAL SCIENCES

Department Of Cranio Maxillo Facial Surgery

Greetings

Enlightening Our Future Surgeons

Department of Cranio Maxillo Facial Surgery, Karpaga Vinayaga Institute of Dental Sciences;

Proudly Presents,

INTRODUCTION TO BASIC DENTAL IMPLANTOLOGY

- *Dental implantology course for **Postgraduate, Undergraduate** and **Dental Practitioner** who wants to indulge themselves in implantology as their path of success.*
- *This surgical workshop highlights on the basis of oral implantology for the budding dentists to enlighten their erudition on dental implants.*
- *This workshop holds 2 days workshop with the maximum of 10 participants per batch for 2 days.*
- *The participants will have the fortuity of getting the dental implant hands-on on goat jaw model mounted on a novel simulation clamp that mimics the patient position (Its our pride to introduce exclusively for the first time) and on live patients.*
- *Day -2 – Participants will be allowed to place one implant in live patients individually guided by the experts.*
- *The Lecture will be held between 9am – 10am following which the participants will grab the opportunity of implant placements from 10.30am .*
- *We the department of Oral and Maxillofacial Surgery, Karpaga Vinayaga Institute of dental sciences take up the pride in hosting this workshop with immense pleasure of quenching your thirst of knowledge.*

INCLUSIONS OF THE WORKSHOP

- *Basic implantology, Treatment planning, CBCT interpretation*
- *Perform incisions, flap elevation and suturing technique on goat jaw [Day 1]*
- *implant placement in live patients.*

HIGHLIGHTS OF THE COURSE

- *Hands on implant placement in live patients (under guidance of experts)*
- *Understanding soft tissue handling for implant placement*
- *Understanding the alveolar bone morphology for placing implant*
