

# **KNIFE**

## **DESCRIPTION:**

KNIFE 2024 is Orthognathic Hands-on surgical workshop for the postgraduates enriching their minds in the field of orthognathic surgery in diagnosis, treatment planning and surgery. The workshop focused on case discussion, facebow transfer, model surgery, splint fabrication and live surgical workshop. The participants were allowed to observe orthognathic cases in operation theatres which was a great experience for their fresh minds. Certificates were provided to the participants.
