

WORLD CANCER DAY

DESCRIPTION:

World Oral cancer day is celebrated on February 4th. On this day, art competition was conducted for the interns. The theme for the competition was awareness on oral cancer. Patients who were operated have been invited for the programme and they shared their happiness on their postoperative outcomes. PGs performed skits to create awareness on use of tobacco and the importance of early diagnosis of oral cancer. Prizes were distributed for the best drawings by our department staff.
