

BPS DENTURE PROGRAM

Our department of Prosthodontics and Implantology organised a program entitled “Advance Learning on BPS Dentures – A Lecture Series” on 26th July 2022 at Lecture Complex Hall, KIMS. The motive of this program was to introduce the Biofunctional Prosthetic System to all the budding prosthodontist and to pursue this system in their carrier.

As this curriculum of learning is very important to all Prosthodontics Postgraduate, our department planned and came up with such a topic. All the Prosthodontics PG students of our college attended this program and accepting our invite Prosthodontics PG students from other colleges also participated in this program. As the day demands eminent professionals successfully practising this system and for enlightening the postgraduates about this system – The guest speaker of the day to deliver the lecture was Dr.D.Lingeswar, Senior Assistant Professor, Tamil Nadu Dental College and Mr.Mattheus Boxhorn, Senior Manager Global Educational Technical, Switzerland.

The overall program of the day was very new and informative to all the budding Prosthodontist. And we were happy receiving positive feedbacks from the participants and are also glad to do many interesting and useful program like this in future.
