

CBCT program for general practitioners

On April 24, 2024, the Department of Oral Medicine and Radiology at Karpaga Vinayaga Institute of Dental Science conducted a CBCT program exclusively for interns. The program aimed to familiarize interns with the fundamentals of Cone Beam Computed Tomography (CBCT) and its applications in dental diagnosis and treatment planning. Expert faculty members provided hands-on training, case discussions, and interactive sessions, enabling interns to understand the principles and benefits of CBCT in various dental specialties. The program was designed to enhance interns' knowledge, skills, and clinical confidence, preparing them for their future dental practice.
